

APPLICATION INSTRUCTIONS FOR THE KICKBALL PITCHER MOUND

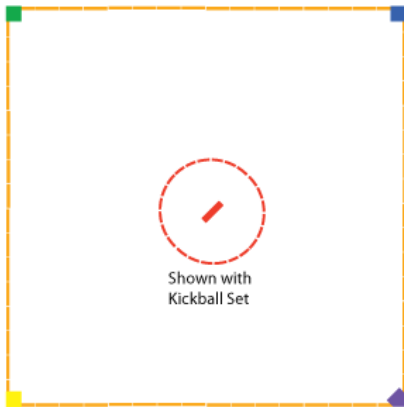

Product Number: 17-1W-055

(USE WITH KICKBALL SET 17-1W-056)

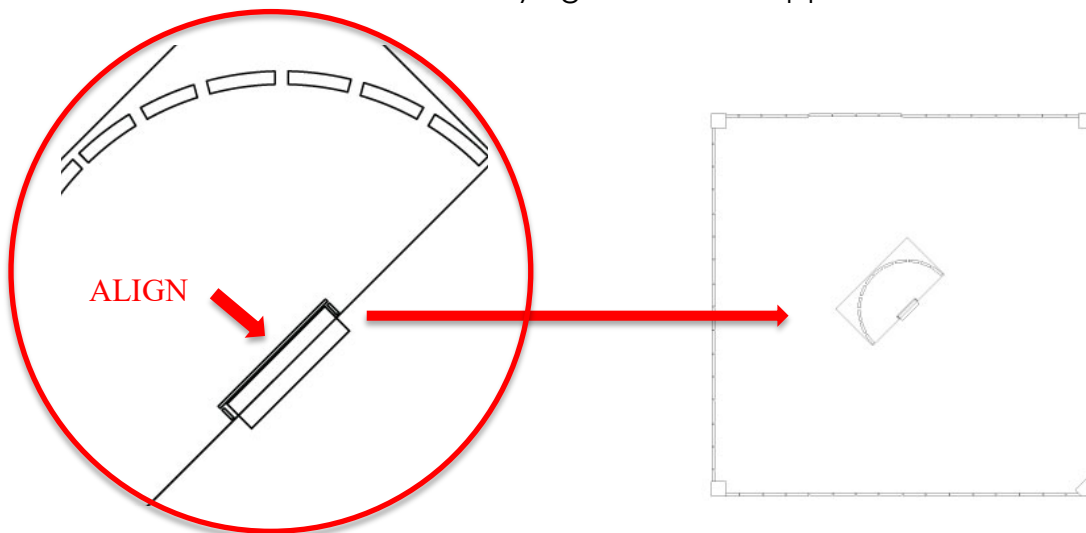

SIZE: Approximately 7 feet 8 inches to outside ring.
Kickball set sold separately.

ESTIMATED PAINT TIME: 1-2 people for ½ -1 hour.

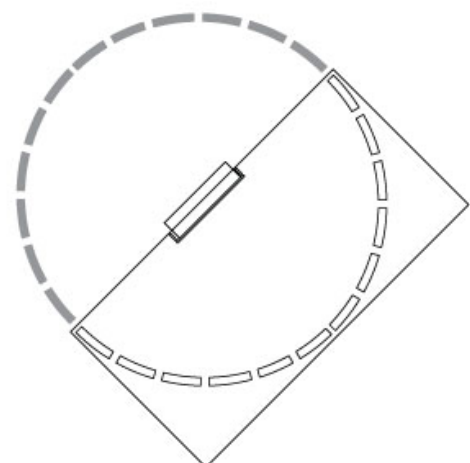

READ FIRST: Completely read "General Instructions".
Prepare surfaces as recommended before painting.

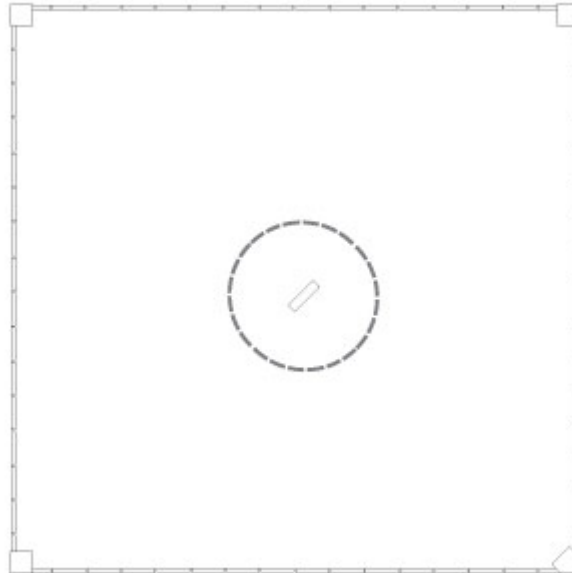

1. Upon completion of applying the Kickball Set or already present bases, mound and lines, center stencil over pitcher's plate as shown below left, using alignment strips around pitcher's plate. Using small sized brushes or rollers, paint the circular mound lines only (not the alignment space around the pitcher's plate). Repeat 1-2 more times to achieve desired vividness, drying after each application, and remove stencil.

2. Once completely dry, rotate and align stencil to complete mound circle, as shown right. Using small sized brushes or rollers, paint the circular mound lines only (not the alignment space around the pitcher's plate). Repeat 1-2 more times to achieve desired vividness, drying after each application, and remove stencil.

3. If desired, gaps between line stencils can be painted carefully by hand. Complete kickball set should appear as below:

4. Allow to dry for 24 hours before use.
